EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Beth L. McMahon (registration no. 41,987) on February 7, 2005.

2. The application has been amended as follows:

Cancel claims 13-24

Cancel claims 26-28

3. The following is an examiner's statement of reasons for allowance:

Regarding independent method claim 1, the prior art of record fails to teach the following limitation: *responding to selection of a first of the data objects present in said list to generate a second graphical interface display on said special device of at least a portion of the contents of said first of the data objects together with a display of a plurality of selectable methods, each of said methods executable on said first data object; and responding to selection on one of said methods to execute that method upon the first data object and display a first result of such execution on said special*

device. The limitations of independent apparatus claim 25 parallels claim 1; therefore it is allowed for similar reasons as cited supra.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
